

All **HUW LEWIS BAND** packages come complete with all sound equipment, instruments and lighting as required:

Professional Sound Systems

(Martin Audio-Crest Audio) for up to 1'000 people (3KW RMS) with a vast personal experience of installation and operation.

Access to sound systems for the client's speeches, background music, presentations or DJs

My own mini grand piano, keyboards and guitars (6 string and 12 string), I am always happy to play a piano if available at the venue, or to organise a rental piano.

Wireless microphones as needed

CD player with some background music (although I do not sell myself as a DJ)

Lighting rigs for musician and dance floor

Portable Mini Grand Piano

please allow me to present to you

MY LATEST INNOVATION FOR EVENTS

I have invested in a beautiful white Grand Piano Shell. It looks just like a little Grand Piano but is in fact a very light portable shell with an electric piano inside.

This means that I can bring to *any* event, *anywhere, inside or outside*, the look, feel, style and class that only a Grand Piano can bring, coupled with a perfect sound, perfect tuning and a *volume control*, meaning that I can provide the ideal live music solution to a whole variety of events that would otherwise involve rental costs, setting up and tuning problems, overly loud music etc.

I can provide this piano as part of my event package, or offer it on rental for any event that may need a temporary Grand Piano where it would normally be impossible to instal one (mountain restaurants, boats, up narrow staircases, outside in hot sunshine or cold weather...)

Although obviously this Piano is suited to accompany high class events, weddings and galas, it also adds a touch to the rock band too!

So.....the sky's the limit, lets let our imagination run wild and think up the craziest location to have a stylish event with great live piano music right there!

Many thanks for you time in looking at this, and looking forward to hear your most challenging event proposals!
